MARKET CASE STUDY | INDIA | OCTOBER 2026

India's e-bus and e-LCV market

Who is winning, why market share lags tender wins, and what happens by 2030

E-buses
Won in tender rooms

E-LCVs
Won at dealers and lenders

23,540
e-CVs sold, Jan–Aug 2026
+155% YoY; above all of 2025

28.2%
Switch e-bus share, H1 2026
Up from 3.6% in 2024

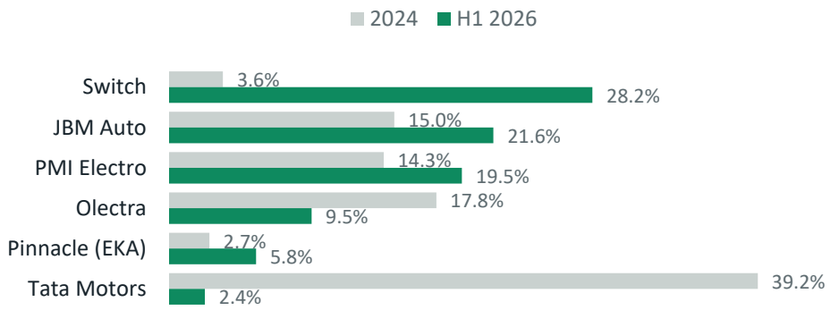

10,900
e-buses in largest tender
80% won by PMI and EKA

5.91%
EV share of LCV sales
Doubled in 12 months

₹4,391 cr
PM E-DRIVE for e-buses
14,028 buses to Mar 2028

E-bus leadership has flipped

Share of India e-bus registrations by maker, 2024 vs H1 2026

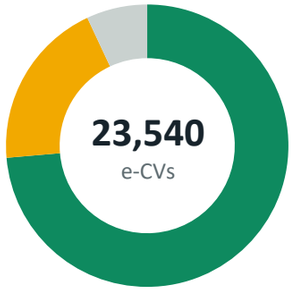

Switch 3.6% → 28.2%

Tata 39.2% → 2.4%

Goods carriers drive growth

e-CV registrations by category, Jan–Aug 2026

73% Light goods
17,292 · +202%

19% Electric buses
4,556 · +43%

7% Heavy goods
1,637 · +618%

Tata and Euler sold 71% of e-LCVs. Euler grew 1,305% with no central subsidy.

Key insights

Share lags tenders
Switch leads, yet won none of the 10,900-bus tender

Cities pay per km
Bengaluru contract rates run ₹40–66 per km

Diesel at ₹97.83
Higher fuel prices widen the EV running-cost gap

Localisation next
Motor rules from Sep 2026 and Apr 2027

Unit economics
~1 year
payback on an entry e-LCV at 100 km/day; ₹1.5/km electric vs ₹6.5/km diesel

Government schemes
~21,000
e-buses funded by PM E-DRIVE and PM-eBus Sewa; EVs keep 5% GST vs 18% for diesel

2030 outlook
14k / 100k
e-buses / e-LCVs sold a year; winners compete on cost per km and retail finance
